Menominee Tribe Grateful that Rep. Paul Ryan Expresses Support for the Proposed Hard Rock Kenosha Casino

Craig Corn, Chairman of the Menominee Indian Tribe of Wisconsin said today:

"We are honored to have earned the support of Congressman Paul Ryan and are confident that our project will meet his goal of a net jobs gain that benefits everybody.

"The Menominee Hard Rock Hotel & Casino in Kenosha will create more than 5,000 good-paying jobs, employ 1,400 construction workers, generate millions of dollars in new state revenue annually and provide numerous other economic benefits to Wisconsin.

"We are grateful that bipartisan support of our plan continues to grow.

"We are committed to working with Governor Walker and his Administration to demonstrate that the Kenosha casino is a true job-creator and the right move for the Badger State. Congressman Ryan's endorsement says a great deal about the benefits of our project, and we greatly appreciate his support."
